Principal's Desk

Dear Glenvale Community,

Firstly I would like to thank all of our students, staff, parents, carers and members of the wider Glenvale community for adapting so quickly to the changes we have had to make over the last few weeks due to COVID-19. The current situation is incredibly stressful for everyone in our community and I appreciate the sacrifices you are all making to stay safe. At a time like this it is really important to look after each other and I encourage anyone in our school community who is struggling to reach out for help. We will get through this together.

I would also like to thank everyone in the Glenvale community for the warm welcome that I have received as Relieving Principal. I am thrilled to work with the Glenvale School staff. I can already see they are dynamic, positive, knowledgeable and deeply committed to the learning needs of the students. I'm looking forward to when restrictions are eased and our school operations can return to a more normal state, where I will be able to get to know all of the students, parents and carers.

I would like to acknowledge and thank Matt Johnson for his time as Glenvale School Principal. It is exciting to see many of the projects that Matt has led coming to completion. I look forward to working with the staff and community on new projects and improving the experiences and opportunities for our students.

On a positive note, I'm very excited to let you all know that the playground and COLA at the North Entrance campus is finished. When restrictions have eased, it will be wonderful to celebrate the completion of this project with our school community. At the Narara campus the new WiFi has been installed and is operational. This will be a fantastic resource for our staff and students. The library has also been cleared, ready for the new furniture and equipment.

Once again, I would encourage everyone to look after each other and stay safe. Please don't hesitate to reach out if you need to and I very much look forward to the time when our school community can be together onsite again.

Regards Peter.

# Glenvale School

## Works notification

20 July 2021

### Update on maintenance work at Glenvale School

Further to our previous notification dated 11 June 2021, the program of maintenance work to improve the facilities for students at Glenvale School and provide the best learning environment at the North Entrance Campus is complete.

Work included:

- refurbishment of Block G, widening of doorways and upgrades to toilets and showers)
- refurbishment of Block O (the library)
- relocation of a timber building from another school to provide new facilities including two classrooms, four offices, a staff room, kitchen, toilet, shower and change areas.
- a new covered outdoor learning area (COLA), shade structure and improvements to pavement and landscaping, including external breakout areas.

Separate to the maintenance program, the school has also submitted two additional School Funded applications for additional works, which includes the refurbishment of classrooms, including data upgrade, wall linings and cabinetry and the internal refurbishment of Block K. This is currently being planned with the school principal.

### Working with contaminated soils

Further to our works notification dated 26 May 2021, during planned maintenance work at Glenvale School asbestos containing material was found in the central playground area. Work to remediate this area during the school holidays was delayed due to the planning approval pathway. Due to the contaminated soils and the proximity to the coast, the work requires a development application to be submitted through Central Coast Council.

This process is underway, and we are planning to undertake remediation works during the October school holidays, pending approvals. The section of the playground that returned the positive findings will stay cordoned off and out of bounds to students and staff until remediation is finished.

The work will involve encapsulating the affected area with artificial turf to allow students to regularly use more of the playground. The area will be remediated in accordance with the Department of Education's Asbestos Management Plan and SafeWork NSW regulations. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

Testing will be completed to ensure the area has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff. We will keep you informed if further material is found which requires removal.

---

### For more information contact:

School Infrastructure NSW

| NSW Department of Education – School Infrastructure

The health, safety, and well-being of the school and the local community is our highest priority. Please be assured that the removal of this material will not pose a risk to the local community.

Thank you for your continued understanding during this important work. We will continue to keep you updated on the remediation works. We welcome any enquiries regarding work at Glenvale School.
